VOLUME CVI.---NO. 39. ALEXANDRIA, VA., WEDNESDAY EVENING, FEBRUARY 15, 1905. PRICE 2 CENTS.

A rich man died the other day. He died in the very midsummer of life, and he left his family $1,000,000. The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution. I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in intervals of business and by neglect of symptoms which have been warning him a year past, that his stomach was failing in its duties."

The symptoms of a disordered stomach are, among others, variable appetite, sour risings, heartburn, undue fullness after eating, dull headache, dingy complexion, discolored eye, fluctuations in physical strength, nervousness, sleeplessness dependency. No person will have all these symptoms at once.

The restoration of the stomach to sound health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses until the functions of the stomach are in healthy operation. Then the nerves are quiet and strong, the appetite healthful, the sleep restful, the eye bright, the complexion clear.

"Please accept my thanks for the benefit which my child received from your medicine," writes Mrs. W. A. Morgan, of Silica, Mo. "He had been troubled for nearly a year with liver complaint, indigestion and constipation. I gave him your 'Golden Medical Discovery' and 'Pleasant Pellets,' and they did him great good. I gave him the 'Discovery' about eight months, and several vials of the 'Pellets.' He seems to be perfectly well now."

If you want a cure accept no substitute for "Golden Medical Discovery."

Pierce's Pleasant Pellets. These ORIGINAL Little Liver Pills, first put up by old Dr. R. V. Pierce over 40 years ago, have been much imitated but never equaled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged Stomachs, Livers and Bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

RUSSIAN REPULSES.

A dispatch from Tokio says: "The Russians shelled and twice attacked Waitao Mountain on Sunday, February 12, but were repulsed. Small forces of Russian infantry attacked Lapatai and Hanshantai on Monday, February 13, but were repulsed. The Russians continue to construct intrenchments in the neighborhood of Heikoutai."

Reports from Liaoyang place the total Russian force between the Shahke river and Harbin at 450,000, of which 280,000 are on the fighting line. The condition of the prisoners and of the bodies of the dead indicate that the Russians are short of shoes and winter clothing. Some of the officers are wearing Chinese shoes. It is believed that exposure to the cold is greatly increasing sickness among the Russians.

According to the latest gossip at the war office, Gen. Kuropatkin has charged Gen. Grippenberg, former commander of the second army, with insubordination in leaving his command without authority, but the story cannot be traced to a responsible source, and perhaps represents simply a new version of the incident. While definite information continues to be lacking, it seems to be generally accepted that Gen. Grippenberg, after the recent flanking operation, blamed the commander-in-chief for his failure to support him, and, after a stormy scene, started for Russia to personally report to the Emperor.

Russia's cup of ills is fast filling to overflowing. The seeds of pestilence as well as revolution are being sown. The health authorities of St. Petersburg are fighting an epidemic of typhoid fever and preparing to cope with cholera in the spring. Cases of the latter have appeared at numerous places.

Official returns for the first year of the war show the number of men killed in battle to have been between 40,000 and 50,000 and the total loss to the active army in sick and wounded over 50,000. Nearly half of the latter may return to the ranks. In all 130,439 officers and men passed through the hospitals in the year. Over 4,000 died in hospitals. The above figures as to the number of killed cannot be accurate. They are probably nearer 100,000 than 50,000.

The Japanese naval staff announces that commanders have been instructed to fire upon and sink any colliers found in company with the Russian second Pacific squadron regardless of their nationality.

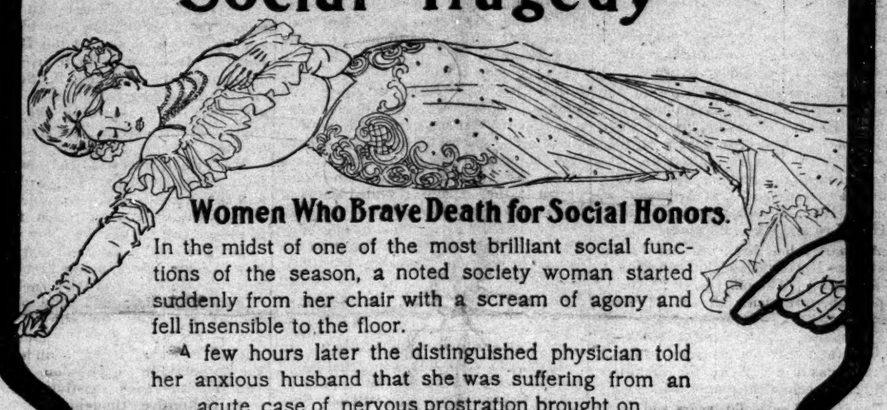
Verdict for Defendant.

After being out 40 minutes, the jury in the suit for 10,000 damages brought by Effie Beitsch, the twelve year-old daughter of John Beitsch, against Oliver F. Faulkner, a merchant of Winchester, which had been on trial in the Circuit Court since Monday, brought in a verdict for the defendant yesterday afternoon. The courtroom was packed with spectators when the jury filed in. Mr. Faulkner, the defendant, warmely shook the hand of his attorney, Richard E. Byrd, and embraced and kissed each member of the jury. The taking of testimony was concluded yesterday morning, and the argument occupied the greater part of the afternoon. The evidence consisted largely of the girl's allegation that Mr. Faulkner had attempted to criminally assault her. Her story was contradicted by four witnesses, who were in Mr. Faulkner's store at the time of the alleged assault. Declaration of suit was filed on December 2 last and the assault was alleged to have occurred on November 21. The case attracted widespread attention on account of the prominence of the defendant, who has a wife and family. The plaintiff is the daughter of John Beitsch, who is an employe of the Virginia Woolen Company, Winchester. She wept in court yesterday afternoon during the speech of her lawyer, R. T. Barton.

Embalming Fluid Fatal.

A victim of blood poisoning contracted from embalming fluid, which had entered his system years ago while an attache of the coroner's office in Philadelphia, Dr. Frederick J. Delker was found dead in bed in the St. Elmo Hotel yesterday morning. Dr. Delker was a physician and a teacher of embalming, being one of the first to bring the fluid into use in Philadelphia. He was connected with the coroner's office in an unofficial capacity, and while embalming a body some of the fluid entered a little cut on his right hand. He gave this little attention, and it was only a short time before the poison had forced its way into his robust system. Then began the fight to overcome its effect, and what was considered by eminent physicians as a hopeless case was controlled, and Dr. Delker, after months of suffering, was what he thought a well man. But the poison was not altogether eliminated from his system, and before he was aware of it he was again its victim. Gradually its effects became more apparent and slowly it underminded his health. His heart was affected, and this, coupled with the blood poisoning, made death only a question of time. During the civil war Dr. Delker fought under the flag of the Confederacy.

Social Tragedy



Women Who Brave Death for Social Honors.

In the midst of one of the most brilliant social functions of the season, a noted society woman started suddenly from her chair with a scream of agony and fell insensible to the floor.

A few hours later the distinguished physician told her anxious husband that she was suffering from an acute case of nervous prostration brought on by female trouble, and hinted at an operation. Fortunately a friend advised her to try

Lydia E. Pinkham's Vegetable Compound

The result was that she escaped the surgeon's knife and to-day is a well woman.

The derangement of the delicate female organism sets every nerve in the body quivering with pain. Headaches, backaches, torturing bearing down pains and dragging sensations make women nervous and hysterical.

DEAR MRS. PINKHAM:—I was troubled for eight years with irregularities which broke down my system and brought on extreme nervousness and hysteria. I could neither enjoy my meals nor sleep nights, became easily irritated and nervous and very despondent. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. After taking the third bottle, my general health began to improve. At the end of the fifth month I was well and could attend to my household and social duties and enjoy life. MRS. CHESTER CURRY, 42 Saratoga Street, East Boston, Mass.

Mrs. Curry, whose portrait appears on the right, is the leader of the Ladies' Symphony Orchestra. The following letter is from Miss Goode, President of the Bryn Mawr Lawn Tennis Club of Chicago:

DEAR MRS. PINKHAM:—I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unseasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since. MISS CORA GOODE, 355 E. Chicago Ave., Chicago, Ill.

A Touching Story

is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At E. S. WEDNESDAY EVENING, FEB. 15, 1905

ACCORDING to some Russians who have recently refugeed from the land of their birth the scenes of the past few weeks in the land of the Czar are but the mutterings of a volcano which in about two years' time will, by its activity, sweep autocracy from the face of the earth. The forecasts are more alarming today, as cholera is said to be advancing on Russia. It remains to be seen whether these people are prophets or sons of prophets. The present attitude of this country as well as England is inimical to Russia and attempts are made daily to induce English-speaking people to believe that Russians—that is those in authority—are out-Heroding Herod in their cruelty. Many of the pictures produced are akin to those drawn of Spain when she was attempting to subdue the Maceos and Gomezes in Cuba. It was then asserted that the Spaniards denuded females on the pretense of searching them, and valleys of dry bones appeared in yellow journals. The same things are now said of Russia, in which country it is asserted that women after having been placed in a state of nature are unmercifully whipped with the knout. The stories brought into the United States by Russians hostile to the Czar should be taken with salt.

THE House of Representatives will investigate the recent rejection of the Midvale Steel Company's bid for the armor plate contract and will determine whether or not the action of the Secretary of the Navy in awarding the contract to the steel trust was warranted. A resolution of inquiry introduced in the House by Mr. Rixey was favorably reported in amended form by the naval affairs committee yesterday, as stated in the Gazette of that day. It will be passed without opposition. As remodeled by the committee, the resolution calls upon the Secretary of the Navy to furnish the House with all correspondence and other information regarding the award of the contract to the Carnegie and Bethlehem companies and the rejection of the Midvale bid. The Midvale company offered to supply armor at $498 a ton, while the Carnegie and Bethlehem companies asked $400 a ton, plus the Krupp royalties, which amount to $45 a ton. This made a difference of approximately $500,000 for the entire contract in favor of the Midvale company.

ANOTHER republican Senator has turned against the President—this time Mr. Kean, of New Jersey. He made that clear yesterday during the hearing on railroad rates before the Senate committee on interstate commerce when Daniel Davenport, of Bridgeport, Conn., speaking on behalf of an organization of holders of railway securities, said he had learned that the democrats had adopted as a part of their platform the theory that the Interstate Commerce Commission should be given power to fix definite rates. Senator Foster, of Louisiana, interrupted, asking: "Haven't you confused that with the President's message?" Well, you know when Phaeton tried to drive the chariot of the sun, he found no one riding with him," replied Mr. Davenport. "I think the democrats are trying to ride on the President's chariot." "No, the President is trying to get on our chariot," said Senator Carmack. "Well, I know he has gotten out of mine," said Senator Kean. The President's domineering disposition is driving many of his former supporters from him.

THE DEATH of J. Frank Hamby, a non-union painter in Washington, from injuries resulting from a falling scaffold, has been investigated by the coroner, who has recommended that the case be further examined by the grand jury. Hamby was at work on the front of the Cairo Hotel, when the scaffold, supported by a new rope, broke, precipitating the unfortunate man to the ground. It is suggested by some that acid had been placed on the rope which caused it to part. Most people would prefer to believe that the breaking of the rope was the result of an accident, and that no man had anything to do with causing the death of a fellow being.

A LARGE cargo of American steel rails will be shipped to England next week from Philadelphia on a British steamship for use on the Great Northern Railway of that country. The order, which was awarded to the Carnegie Steel Company some time ago, caused much comment in the steel trade at the time, and the English newspapers were considerably exercised over it. This shows that rails can be made in America and sold in England at a lower figure than they can be made in that country though the trust contends that a high tariff must be imposed on rails to protect this American industry.

IT IS UNDERSTOOD that a Richmond newspaper is sending out a circular of inquiry as to the strength of Mr. J. T. Ellyson, of Richmond, for the office of Lieutenant Governor. This would indicate that Mr. Ellyson may yet be a candidate for that position, although he announced some time ago that he would not be.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Feb. 14.

President Roosevelt returned from New York to Washington this morning to take up again the cares of his office. Mrs. Douglas Robinson, the President's sister, accompanied the party, to be a guest at the White House for several days. The one thing that most impressed the President during his brief holiday was the strong spirit of Americanism that seems to prevail on the East Side notwithstanding the foreign birth of most of those he met. Second only to his pleasure in making this discovery was his delight over the warmth of the greeting extended to him personally. Although it was done without his knowledge, and was really regarded by the President as unnecessary, the fact is that never heretofore were such elaborate precautions taken by the secret service and by the police of New York to ensure his safety. During the whole time he was there it would have been absolutely impossible for a stranger with untoward designs to approach near enough to the President to do him any harm.

Chairman Burrows, of the Senate committee on privileges and elections, has called a meeting of that committee for Thursday morning for the purpose of considering the evidence and arguments of counsel in the Reed-Smoot case.

The State Department today received the new protocol negotiated with the republic of Santo Domingo. It is similar to the rejected agreement negotiated January 20th. between Commander Dillingham and the Dominican authorities, but provides that its provision shall not become operative until after ratification by the United States Senate and the Dominican Congress. Under the protocol, if ratified, the United States will take charge of the customs receipts of the republic, turn 45 per cent over to the government of Santo Domingo and use the remaining 55 per cent for the liquidation of her foreign debt.

Arrangements are partically complete for President Roosevelt's trip to Texas next month. No official announcement will be made from the White House, regarding the itinerary, however, until within a few days of the time set for the start, for it is within the range of probability that events may turn up in governmental affairs that would compel Secretary Loeb to advance or defer the start anywhere from two days to a week. If present plans are carried out, however, the President will leave Washington about March 25th and will not return until very nearly the middle of May.

Maud Dixon was appointed postmaster at West End, Fairfax county, Va., today, vice Willis Dixon, resigned.

Mr. S. L. Lupton, of Fredericksburg, has been appointed purchasing agent for the Isthmian Canal, with headquarters at New Orleans. The salary is a good one.

According to the tabulation of the number of farm animals in the country by States, published today by the Agricultural Department, Texas leads in horses with 1,270,000 to her credit; also in mules with 391,000. New York is the premium cow State, having 1,700,000. Illinois, naturally, excells in swine, 3,700,000 in number, nearly a million more than any other State. Sheep seem to prefer Montana, which is credited with 5,000,000, Wyoming coming second with 3,200,000.

The House this morning passed a resolution introduced by Mr. Campbell (rep. Kan.) instructing the Secretary of Commerce and Labor to investigate tht Kansas oil situation, particularly with reference to the affairs of the Standord Oil Company and its control of the market.

Fifty-Eighth Congress.

Washington, Feb. 15.

SENATE.

Pressure for the enactment of railroad rate legislation is growing greater. There were presented in the Senate today memorials from the legislatures of Indiana, North Dakota, and Arkansas praying for the enlargement of the power of the Interstate Commerce Commission, along the lines proposed by President Roosevelt. In presenting his memorial Mr. Berry, representing Arkansas, expressed the hope that the committee, to which the communication was referred, would be soon able to report a measure for action by the Senate. "The House of Representatives has already passed such a bill" he declared, "and the interest in the question is so universal and the demaud for action so great that the Senate should not delay."

A resolution offered by Mr. Teller was agreed to. It called upon the Secretary of the Treasury to inform the Senate how many silver dollars had been coined for the fiscal year ended June 30, 1904, and February 1, 1905, under the act of June 13, 1898, also the amount of silver bullion in the Treasury.

The Senate resolved itself into a court of impeachment at 2 o'clock.

HOUSE.

The House met today at 11 a. m., in order to debate the naval appropriation bill, and for the first time in many years a session of the House was opened without prayer. The chaplain did not know that the session was to begin an hour earlier than usual. There were not two score members in their seats.

A bill was passed reclassifying the salaries of steamboat inspectors; also a resolution directing the Secretary of Commerce and Labor to inquire into the conduct of the Standard Cil Company in the Kansas oil field.

In committee of the whole, the naval bill was then debated.

Mr. Bell (Dem. Texas) opposed gigantic appropriations for the navy. When the present building programme is completed, he said, it will take $100,000,000 a year to keep up the naval establishment.

Mr. Gaines (Rep. W. Va.) replied to Mr. Littlefield's declaration on yesterday that the country is facing a deficit of the Treasury and counselling the members to go slow in making appropriations. Mr. Gaines denied that there is a deficit or that there would be one.

Secretary Shaw yesterday submitted to the Senate—in response to a resolution introduced early this month by Senator Daniel—all the rulings and correspondence on the subject of the construction of the provise of the act of August 28, 1894, relative to the sale of tobacco by farmers and growers in person and by agents. The matter is of vital interest to the tobacco growers of Virginia. Secretary Shaw ruled that a farmer has the right to sell his own leaf tobacco within certain limitations. He must neither manufacture nor sell by agent, however.

Gen. Fitzhugh Lee has loaned to the Confederate Museum at Richmond Gen. Robert E. Lee's saddle, spurs, two bridle bits and a handsome pair of field glasses. The museum also has the parole of Gen. Lee and his staff officers, issued at the surrender at Appomattox, April 9, 1865. It contains the signatures of Gen. Lee and six of his staff.

A charter has been granted to the Manassas Illuminating Company (inc.), of Manassas. The officers are: W. N. Lipscomb, president; R. S. Hynson, secretary; G. W. Payne, treasurer, all of Manassas. Wine and was formerly Miss Powell, of Accomac county.

GUEST OF HUNGARIAN CLUB.

For the first time since the days when he was Governor of New York, President Roosevelt last night revisited the heart of the East Side, where, as a guest of the Hungarian Republican Club, he dined and spoke at the restaurant "Little Hungary." Guarded by mounted police and secret service men, through streets cleared and cordoned by patrolmen, he drove from upper Fifth avenue into the crowded district which lies around Second avenue and east Houston street, a region of small shops and tenements and largely populated by foreign-born citizens.

From the moment his carriage entered the district he received an ovation. Never before has a president of the United States visited this little-known part of New York, and never before has a fraction of the thousands that cheered him seen a nation's ruler. Electric lights winked and blinked characteristic legends, gaudy bunting fluttered in the wind and the great East Side showed its enthusiasm in every imaginable way. Across Second avenue, at Sixth street, a huge electric device blazed forth the single word "De-lighted"—a word frequently used in the decorations. Many small shopkeepers apparently had spent a week's profit in elaborate decorations, and it has been many years since the East Side saw such a night.

Six years ago Governor Roosevelt was entertained at the same place, and when he was police commissioner he became familiar with every turn of the narrow streets through which he passed last night. In his police escort last night there were some of the men who wore their badges under him when he headed "the force," and who still addressed him as "Mr. Commissioner."

When the President drove up to "Little Hungary" last night he fulfiled a promise made to members of the Hungarian Republican Club several years ago that he would be their guest at a banquet if their prediction came true and he ever went to the White House.

The applause was deafening as the President arose and faced the crowded room. His speech was devoted to local matters and reminiscences of the East side, and the President made a number of references to by-gone days when he filled the positions of Police Commissioner and Governor.

Congressman William Sulzer, a democrat, whose district includes the section in which "Little Hungary" is located, was one of the speakers at the dinner and paid a high tribute to Mr. Roosevelt, at the same time scoring the United States Senate.

Among the telegrams read at the dinner was one from the Hungarian Club of Kansas City to President Roosevelt, which said;

'Hungarian hearts, they beat for you because they always find you true. We hope you will find the tokay right and God will bless your appetite."

Vice President-elect Fairbanks sent a letter expressing his regret that he could not be present.

A letter was read from Count Apponyi, one of the opposition leaders in the Hungurian Diet, in which he said how much he would have liked to attend the banquet. "I have no right," he said, "to express anything like partisan feeling with respect to American affairs, but there is nothing to prevent me from giving expression to the feeling of high personal regard which I, like all Europeans, entertain for President Roosevelt, of whom every American, irrespective of party distinction, may well say what an English Tory statesman said concerning Lord Palmerston: 'We are all proud of him.'"

Kossuth, the Hungarian statesman, sent the following telegram, which was read amid great enthusiasm: "Deliver at banquet congratulations of our party to President Roosevelt."

At midnight Monday night fire was discovered in the tailoring establishment of T. C. Conlon, on Main street, Charlottesville. It destroyed the large brick structure occupied by Conlon, and L. Shapero, dry goods merchant, with contents, loss about $15,000.

Today's Telegraphic News

Mysterious Suicide.

Boston, Feb. 15.—An extraordinary air of mystery surrounds the suicide at the Hotel Touraine of a handsomely dressed man, 30 or 35 years old, who, before he killed himself, destroyed everything belonging to him which he believed might give a clue to his identity. The man registered at the Touraine Monday evening as S. B. Neal, of Chicago. He was a properous appearing man who bore himself as though accustomed to moving in good society. Yesterday noon his body was found on the bed in his room. His arms were crossed upon his breast, a white cloth covered his face and the bed clothing was as smoothly spread over his body as though a funeral director had attended to these details. Dr. Grant, the house physician, pronounced it a case of suicide by morphine and chloroform. The body is that of a man about 35 years of age, 5 feet 10 inches tall, weighing 175 pounds, clean shaven, of dark complexion, having brown eyes and regular teeth. The police officials now believe that the man belonged in Washington, D. C., as a careful examination of his brown leather satchel revealed traces of letters making out that address, although rather indistinctly. The examination also showed that the initial mark on the satchel in ink had probably been "H. McC." or "H. McO." The suicide had scratched out the letters as well as he could with a knife.

Kaiser Opens Czar's Eyes?

Berlin, Feb. 15.—It is reported from a high source that Kaiser William has revealed the truth regarding "Bloody Sunday" and the political situation in Russia to the Czar. The Kaiser ascertained that the Czar was really ignorant of current events in his own empire. William considered it his duty as a friend to open the Russian ruler's eyes, and accordingly collected cuttings from English and German newspapers giving full accounts of events in Russia. These he sent by special courier to St. Petersburg, to be delivered into the Czar's own hands. The Russian emperor thus learned what had actually happened. The Kaiser also wrote to Czar Nicholas warning him of the dangers of remaining ignorant of the condition in Russia and offering to keep him informed at any time of the truth which the Czar's entourage seek to conceal from him. The Czar has replied to this letter, thanking the Kaiser for his valuable information, without which he would have been unable to get a real insight into the condition of affairs.

Countess Montignoso.

Berlin, Feb. 15.—The Lokal Anzeiger today prints an interview with the Countess Montignoso (former Crown Princess Louise) of Saxony, in which she says that driven by desperation she has decided to hand to King George of Saxony her child born since her elopement with M. Giron. In the interview she thus describes her state of mind: "The measure of my sufferings is overflowing. I desire the world to know how I have been hunted, humiliated, persecuted and tortured. I feel weak and broken down and so crushed I am unable to make further resistance. I have surrendered my child to escape continual persecution. I am the personification of misery."

Czar Threatened with Assassination.

St. Petersburg, Feb. 15.—Your correspondent is informed on the most reliable authority and despite denials, that the report is correct that the Czar a fortnight ago picked up and read a letter threatening him with assassination. He showed the letter to one of his ministers. The letter was written in perfect French, on the finest gilt-edge paper, but was evidently written by a Russian. The letter was found by the Czar in one of the halls in the palace at Tsarskoe-Selo, and stated that a committee had been formed to cause his death. At the time the missive was found, the closest guard was placed on His Majesty and this extra protection continues.

Strike Spreading.

St. Petersburg, Feb. 15.—The strike movement still continues to spread in area but it is not likely that it will again become general. An agitation is being carried on among the men, and while here and there it is successful, the majority of the men who have returned to work pay little heed to the speeches and proclamations of the agitators. At the Putloff Works the men are working. They are picking out the men who will act on the representative commission which will meet the employers to discuss demands. In this connection the men are demanding that the government guarantee immunity from arrest for these delegates before they are elected.

Four Persons Asphyxiated.

Cleveland, O., Feb. 15.—Charles Heller, aged 50, his wife, Josephine, aged 48, his daughter, Mrs. Mary Nolan, aged 20, and the latter's husband, George Nolan, aged 25, a railroad man, were found dead in a little house on Central Avenue, here, this morning. It is supposed they were asphyxiated by natural gas, although the police suspect poisoning, and are investigating. Heller's body was found on a couch, and his wife's body was in a rocking chair. The bodies of the Nolans were found in bed.

Coroner Siegelstein after a preliminary investigation of the case, said today he believed the deaths were due to poisoning.

Preparing for Outbreak.

Constantinople, Feb. 15.—The Turkish government is preparing to meet any outbreak which may occur in the spring. Troops are leaving daily by rail and by sea for Salonika. There are wild reports current that these preparations portend a war with Bulgaria, but these reports are without foundation. The real cause for the activity is the usual springtime uprising in Maceedonia, which this year promises to be more serious than ever. The presence of an Austrian squadron in Greek waters is causing the Porte uneasiness, as no explamation is given.

Execution Stayed.

Harrisburg, Pa., Feb. 15.—The pardon board, this morning, granted a continuance in the Edwards and Greason cases. The board continued the case of Mrs. Edwards and granted a rehearing in the Greason case. W. H. Saddler, colored, formerly of Alexandria, Va., is one of Greason's counsel.

Early this afternoon, the order withdrawing the Edwards and Greason death warrants, was signed by Gov. Pennypacker and was taken to Reading.

City Council.

The session of the City Council last night was about an hour and a half in duration. An average volume of business was transacted. Nothing of special interest was presented save the electric light matter which was discussed for a short time by the Common Council. The subject, however, was not advanced.

BOARD OF ALDERMEN.

Six Aldermen were present, and in the absence of President Sweeney Vice President Curtin presided.

Mr. Fisher submitted an adverse report on a petition of sundry carpenters asking that all lumber sold in Alexandria be measured, inspected and marked. The report was adopted by a unanimous vote.

Mr. Fisher also submitted an adverse report on a resolution providing for salaries for members of the Board of Health. In doing so he referred to an opinion of City Attorney Boothe to the effect that the new constitution did not affect the laws regarding the Health Officer of this city. The report was adopted.

Mr. Fisher, who was chairman of the joint committee of the two boards which was authorized to take suitable action in regard to the transportation facilities of the electric railway company said:

Mr. President—As chairman of the special committee appointed recently by this honorable body to take such action as they might deem advisable to remedy the imperfect service of the W., A. & Mt. V. Ry. Co., I have the honor to report as follows: Being confident that the Corporation Commission would investigate the then existing condition, your committee thought it advisable to consult and co-operate with the Mayor and committees from other organizations working to the same end. Upon consultation the fact was disclosed that we could readily procure sufficient evidence of the effect of imperfect service, but not of the cause, it became necessary, desiring to fully present to the commission our complaints, as well the cause as the effect, considered it advisable to engage the services of experts, for which purpose a sub committee, consisting of the Mayor, Mr. Burke, Mr. Leadbeater and Mr. Harrison, was appointed, and of their energies and success the result speaks more eloquently that I could. Believing that residents of Alexandria employed in Washington should not be made to bear the expense incident to the investigation, and because of the large number so employed, it was and is to the material interest of the city to secure them safe and efficient transportation; hence your committee decided that the expense should be borne by the city.

Mr. Fisher than submitted a resolution appropriating $252.50 for the purpose named and it was passed by a unanimous vote.

A number of papers were sent in from the lower board, all of which were concurred in. In some cases explanations were made by Messrs. Burke, Marbury and W. H. Sweeney, while queries propounded by Mr. Ballenger were satisfactorily answered.

COMMON COUNCIL.

The board was called to order shortly before 8 o'clock.

The bills of the city against the Washington, Alexandria and Mount Vernon Railway Company for inspecting the work, etc., on King, Fairfax and Prince streets were reported back by the finance committee with a recommendation that $286.56 be accepted in full for the bills. The report was agreed to.

The combined committees, to whom the matter had been referred, advised that $1,000 be appropriated for repairs and dredging at the fish wharf and the report was agreed to.

The Clerk of the City School Board communicated to the Council the request of the white teachers of the public schools for a full years pay in 1904-5, with the endorsement of the School Board, and it was referred to the committees on finance and schools.

Mr. Bryan presented an ordinance providing that all tax bills on delinquent property be turned over to the Corporation Attorney for suit or collection, and asked its immediate passage

Mr. Strauss asked how much taxes were overdue.

Mr. Bryan was unable to state the amount, but said this was the usual procedure after a tax sale. The ordinance was unanimously adopted.

The Alexandria Free Kindergarten asked an appropriation of $200 for the present year. The application was referred to the committee on finance.

Mr. Peter Aitcheson asked permission to put mansard roofs on two brick dwellings which he proposes to erect on Duke between Pitt and Royal streets and the permission was unanimously granted. An application by the same gentleman for a sewer on Duke street was referred to the street committee.

Mr. Strauss, by request, introduced an ordinance authorizing the Citizens' Telephone Company to erect poles, string wires and cables, &c., and granting the company the right to conduct a telephone company in the city. The ordinance was referred to the committees on streets and general laws.

Reporting on a resolution offered by Mr. Cochran last October fixing the salaries of the members of the Board of Health, the committees on finance and general laws submitted an opinion of the city attorney to the effect that the act of the assembly providing for health boards in the other cities and counties of the State does not apply to Alexandria. The report was adopted.

Council concurred with the Aldermen in appropriating $252.50 to pay the cost of the examination of complaints against the W., A & Mt. V. Railway before the Corporation Commission.

Mr. Hellmuth asked: "Has the electric railway company the right to throw snow off its tracks in front of the business houses and obstruct the passage across the street?"

It was answered that they had no such right.

"Who should stop it?" asked Mr. Hellmuth.

"The police," was answered.

Mr. Hellmuth: "It would be hard to find them when they are wanted."

Mr. Hellmuth also wished to ask if the electric railway had a right to salt the street, and to this a negative response was given.

Mr. Spinks urged action to prevent the obstruction to the streets, by the railway, and said if the police receive instructions they would prevent it.

Fewer Gallons; Wear Longer.

Fewer gallons; takes less of Devoe Lead and Zinc than mixed paints. Wears longer twice as long as lead and oil.

Mr. Strauss said that there was law enough but the City Engineer did not enforce the law.

Mr. Uhler declared that it was the duty of the policemen to see that the railway did not obstruct the streets. "They go along," he said, "with their heads up like turkeys out of a basket and don't see anything but what they wish to see. The police do not discharge their duty."

Mr. Strauss repeated that it was the duty of the City Engineer to see that the snow was removed.

Mr. Spinks defended the police.

Mr. Williams moved that the attention of the City Engineer be called to the matter.

Mr. Bryan moved to join the Mayor with the City Engineer, which was accepted. The motion was agreed to.

The question of the passage of the ordinance to transfer the electric light plant and franchise to Mr. C. F. Thompson and his associates was called up.

Messrs. Bryan, Leadbeater and Burke advocated the passage of the ordinances reviewing, the whole case to show that the sale of the franchise would not diminish the receipts of the gas work, and would save money to the city. Mr. Bryan read statistics to show that the introduction of electricity does not decrease the consumption of gas, but, on the contrary, results in an increase in the use of gas. He further quoted figures and argued to the effect that the present electric plant is practically worn out, the city hasn't the money to renew it, and the city, as well as the public, would benefit by the sale of the franchise.

Messrs. Strauss, Spinks and Williams opposed the ordinance and contended that the new electric plant would be a competitor of the gas works.

Mr. Bryan said that he had heard two remarkable arguments from the opposition, one that the purchasers of the franchise would make the price of electricity so high that the people could not use it, and the other, that it would be made so low that it would make the city's gas plant unprofitable.

Mr. Uhler handed up an amendment, but the chair said that the ordinance was beyond the stage of amendment.

Mr. Uhler explained his position saying he would vote for the ordinance.

The vote was then taken and stood—ayes 9, (12 being necessary), nays 5. Messrs. Strauss, Harrison, Spinks and Williams. Mr. Bryan, also, voted nay, in order to move a reconsideration, which he did.

Mr. Snowden, calling Mr. Uhler to the chair, recalled the circumstances which attended the original investment of the city in the electric light. He said that at that time an offer was made by a company to put up a plant and light the city for $5,100 a year—the price then paid for gas lighting. This proposition had been turned down as some had assured the city that a big revenue would be derived from the sale of electricity, but the promises had never materialized and the cost of lighting the city had increased to about $7,000. He felt confident that if a private company did not erect an electric plant the city would not, and the citizens would thus be deprived of the convenience of electric lights, power &c. He said the city's gas plant would not be affected by a company owning an electric plant; the city would receive $10,000 for the franchise and have a fixed charge for lighting the streets at a cost less than was now paid.

Mr. Spinks again held that the gas plant would be made valueless; said it was now paying a good interest on $250,000 and that a few years ago the plant was practically valueless.

This was strongly controverted.

The motion to reconsider was then carried, ayes 10, nays 4, and the subject was laid over by the same vote.

Mr. Spinks vigorously protested against any reconsideration, contending that the vote had killed the ordinance.

The chair ruled that there was nothing before Council and, on motion, the board adjourned.

CONGRESSIONAL.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

WEATHER PROBABILITIES.—For this section fair and continued cold tonight. Thursday fair; light to fresh westerly winds.

The Weather and the River.

The mercury in the thermometer at 7 o'clock this morning stood at 22°; it was at 8° yesterday morning at the the same hour. Later the temperature rose somewhat, but a cold northwest wind set in which prevented it from rising above the freezing point. In places where the suns rays exerted their power partial thaws took place. The streets, however, and sidewalks on the south sides of streets extending east and west are still covered with ice.

The ice in the river is almost as firm as ever. The B. & O. transfer tugboat Major Brewerton was engaged this morning in breaking a track from the Wilkes street slip to Shepherd's. Her progress was exceedingly slow and there was but little likelihood of resuming the transfer service today.

Government tugboats made trips up and down the river today.

The steamer Norfolk, of the Norfolk and Washington line, arrived up this morning about three hours late.

The Weems line steamers are endeavoring to open up their routes The steamer Middlesex left Baltimore yesterday for the Rapahannock; the Anne Arundel, for the Potomac as far as she can, and the Calvert for the Patuxent river.

Tonight "The Lighthouse Tragedy," a comedy-drama, will be presented, with a cast of characters which will include every member of the company. An excellent comedy-drama is guaranteed, full of good situations. ROPES TAMPERED WITH?

At the the coroner's inquest which was held in Washington yesterday in the case of Frank Hamby, a painter, who fell to his death at the Cairo Apartment House Monday, the testimony indicated that the ropes which held the swinging ladder on which Hamby was standing had been tampered with. It was found that the ropes had been saturated with a substance similar to carbolic acid. The jury rendered the following verdict:

We, the jury, find that Frank Hamby came to his death at 8:30 o'clock on February 13, at the Cairo Hotel, as a result of injuries received from the fall of a scaffold near the cornice. From testimony we are of the opinion that the accident was the result of the ropes breaking, which, in our judgment, were defective. We recommend that the grand jury investigate the circumstances of said death.

As soon as testimony was given by witnesses Coroner Nevitt informed Captain Boardman, of the local detective bureau, and men were immediately assigned to the case. Several witnesses were interviewed by them.

Hamby was a non-union man and was in the employ of a firm who are said to have been listed as "scabs." The testimony showed that several accidents were narrowly averted only by the watchfulness of the men. While working at the Lafayette Apartment House sometime ago, ropes belonging to the firm and attached to swinging ladders were found half cut. The firm and its workmen had been threatened. Two members of the firm in charge of the work at the Cairo testified that the ropes which were used on the ladder were perfectly strong. Coroner Nevitt expressed his opinion that the ropes broke as a result of coming in contact with some corrosive substance, probably carbolic acid.

Men from headquarters have been been assigned to to the case and are collecting evidence to be presented before the grand jury.

Believed to Have Been Murdered.

It is now believed that Captain Carl Swenson and two seamen belonging to the coal barge Gaston were murdered at Newport News December 29. On that date the captain and his men started ashore from the barge, which was at anchor in the harbor of Newport News, during a violent storm. They were never seen again and it was generally supposed that their dory capsized and they were drowned. The dory was never found, but several days ago workmen discovered a pocketbook floating near a Chesapeake and Ohio pier. The purse proved to be the property of Captain Swenson, and it contained numerous valuable papers, but no money. It is suggested that Captain Swenson and his men reached the shore in safety and met with foul play.

Fatal Revolver Duel.

Two men were killed in a mysterious duel yesterday evening at 923 Atlantic avenue, Brooklyn. One of the duelists was Antonio Plittina. His adversary's name was not known. The two met in front of the house in Atlantic avenue, and after exchanging a few angry words, drew revolvers. At the first discharge of the weapons Pittina's opponent fell He was dead before medical attendance could be summoned. Plittina ran away and was seen to go into a cellar. Two policemen, directed by persons who had witnessed the occurrence, got to the cellar just as Plittina's wife came up the stairs. She was wringing her hands. In a corner of the cellar they found Plittina dead. Both duelists had received their wounds near the heart. One of the bystanders said he had heard the name of a woman mentioned by one of the men. It was believed from this that the duel had been caused by jealousy. Who the woman was could not be ascertained.

Prevented a Lynching.

The prompt action of Sheriff Flanagan and his deputies prevented a lynching at Wolf Summit, near Clarksburg, W. Va. A mob had formed around the house of Dr. L. L. Kale, at that place, with lynching paraphernalia, and Henry Behse, a German electrician, was bound hand and foot and a rope was being put around his neck, when the deputies arrived and took the man. Cooler heads then took leadership of the crowd and Kale and Behse were spirited away. Behse was placed in jail. Dr. Kale was arrested on the charge of beating his wife nearly to death, Sunday morning about 2 o'clock. He was brought before Magistrate Gordon and released under heavy bond. When the mob formed around his house, Behse was inside, with the doctor. The mob thought that both men, who had been drinking heavily, were responsible for the woman being beaten, and proceeded to take summary action.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach; liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters I obtained relief, and in a short time I was entirely cured." Guaranteed at E. S. Leadbeater & Sons' drug store; price 50c.

That Tickling in the Throat.

One minute after taking One Minute Cough Cure that tickling in the throat is gone. It acts in the throat—not the stomach. Harmless—Good for children. Sold by all druggists.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflammed tissues to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tried of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren street, New York, will mail it.

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by Gibson & Timberman and W. F. Creighton & Co.

THE annual meeting of the stockholders of THE JULIUS LANSBURGH FURNITURE AND CARPET CO. will be held at the Hotel Fleischmann, Alexandria, Va., THURSDAY, February 23, 1905, at 8:30 p. m., for the election of officers and any other business which may properly come before it.
